

DANISH CHAMBER OF  
COMMERCE IN CHINA  
中国丹麦商会

## **Candidate running to serve on DCCC North Board of Directors**

**Name:** John Markmann

**Company:** Grundfos China

**Title:** President

### **Summary:**

This is to notify you that I would like to be considered to the Board of Directors at the upcoming AGM meeting.

With two decades in China, working for Danfoss China and Grundfos China, respectively, I have rich business management experience in China.

My workplaces in China have been the 3 main locations, Beijing, Shanghai and Tianjin. At same time I am business wise (and in spare time) travelling in most parts of China and interacting with a variety of stakeholders (provisional/local government, customers, dealers, suppliers and acquisitions targets), including in relation to promoting UN Sustainability Development Goals for Water and Climate Actions.

DCCC plays a vital role for Danish companies and their leaders wishing to Net Work and gain a better understanding of the Chinese market, and I would like to contribute to this with my experience.

Also being a board member in several wholly foreign owned companies in China, including the Danish Chamber of commerce in Beijing (2001-03 & since 2020), I understand what is expected of a DCCC Board Member in participation in regular Board Meetings and towards partners, while making oneself available at the disposal of the Chamber when needed.

I would gladly be willing to do so, and I therefore hope that I will get the chance to serve in 2023.

As requested, I have enclosed a short brief about myself.
