

## **DRIP FOUNDATION PTY LTD**

Drip Foundation Pty Ltd. (DRIP) is an Australian fintech company with a U.S subsidiary (Drip Financial, Inc.). The company competes in three key sectors: stablecoins, digital wealth management and payment processing. DRIP's eponymous digital currency (DRIP) is the first asset-backed digital currency for which users may choose their own assets.

DRIP believes in a future where income and investment are the same thing. We believe that if you receive any payment,, that new income should automatically go to work for you through a portfolio of your chosen assets, not simply waste away like cash.
