

Rikai Labs

Rikai Labs is a tech startup that builds [chatbots](#) that blend artificial intelligence, and machine learning with live teachers for WeChat's 800 million monthly active users. Rikai Labs' investors include SOSV and 500 Startups while also having a customer list that includes Fortune 1000 companies such as [Visa](#), Metlife and Publicis Media group.

This is a great opportunity to experience a bleeding edge startup culture first hand. We are looking for interns interested in UI/UX designs.

This Internship is in **Shanghai,China**

Position Description

We are looking for talented, driven interns to help us create,improve and design UI/UX on our chatbot platform and applications. Furthermore, we will ask this position to help us to build a repeatable strategy around UX/UI design.

This is a great opportunity to make high level connections with high level people in the marketing and HR departments of extremely large corporations. Over the past 3 months, we have pitched 30 Fortune 1000 companies and need help to follow up and push forward with deals.

What's in it for you?

Lots of first hand experience. Rikai Labs is startup that has received funding from some of the biggest companies in the world. Our client list includes Visa, Metlife, Publicis and CAA. Our team is small so everyone makes immediate impact in a wide range of areas.

Who should apply?

People who want to learn about how to run a startup business, put their design skills in user.
