Background

In the last two years, the words like "I4.0", "China Made 2025" and "Internet +" become more and more popular as they keep driving a new revolution in the industry. Now China is pushing the "China Made 2025" plan in purpose of upgrading the manufacturing industry. The transformation towards industrial automation and digital factory is an important stage for domestic enterprises, which want to achieve intelligent manufacturing. With the implementation of national "One Belt and One Road" strategy, China's automotive industry chain accelerates the transfer to the midwest. Chongqing and Chengdu already have established a considerable scale of vehicle and parts production Manufacturing base, and this Initiative just increase their manufacturing potential.

In 2018, the 9th High Performance Machining Technology Conference organized by Ringier will bring international industry experts to further discuss the demand of automotive, aerospace, 3C consumer electronics and other manufacturing enterprises in the western regions, while providing new processing and automation technology case study.

High Lights

6 Reasons Why You Should Attend

- 2 Conference Halls, 3 parallel sessions
- 20 well-known speakers and nearly 200 peers will be gathered
- An elaborate schedule of activities
- Covering the latest hot topic in metal working industry
- To develop business contact through face to face communication
- Exhibition area and technical seminar show latest innovative products and solutions

Partial Confirmed Speaker and Topics

Lang Li

Chongqing Pingwei Automobile Technology co. LTD.
Machining Section Supervisor
Auto Cover Mold Automation Processing.

Delong Lv

Institute of New Technology Promotion of Weapon Industry
Senior Engineer
Application of New Material New Technology in Machine Manufacture

Xing Yang

Dongfeng Motor Corporation
Technical Supervisor of Product Engineering Department
Digital Manufacturing Technology of Mould

Yong Cheng

Guangzhou ABITEC Welding Equipment Company Ltd.
Laser/Wire feeder Service & Sales Supervisor.
The Technologies and Applications of Adaptive laser hardening & high-efficiency and intelligent laser welding

Ming Li

Shanghai University
Professor
Modern Quality and Intelligent Manufacturing

Yougen Tang

Central South University
Director, Institute of Chemical Power Sources and Materials
Current situation and Development trend of New Energy vehicle Power Battery

You Wang

Southwest Institute of Technical Physics
Professor
Additive Manufacturing, an Entry Point of Lasers for the Future Industry

Qingling Zhao

Chongqing Die & Mould Industry Association
Secretary-General
Development and Opportunity of Chongqing Mold Industry

Daijun Huang

CAF
STA Supervisor
Hot forming application trend and challenge

Ruihong Wang

Skyworth TV
Quality Control Manager
Application Sharing of Adaptive Laser Quenching & High Efficiency Intelligent Laser Welding Technology

Precision Machining Session

- The Advantage and Cost Control of High Speed Stamping Production Line
- Carbon Fiber Materials in Lightweight Solutions for Cars
- The latest Development of High Performance Synthetic Metal Working Fluid
- Application of Non-aureate Materials in Ceramic Glass
- Preparation Technology of High Temperature Alloy
- How to Achieve a Process Control that Single Processing to Batch Precision Machining Processing
- Numerical Control System and High Efficiency & Precision Grinding Technology
- Deformation Control and Surface Highlight Control
- How to Merge 3D Printing and Cutting
- Case Study of Professional Deburring Process
- Application of Cleaning Technology in Automobile Manufacture
- Digital Molds Technology
- Cutting Tool Surface Coating Technology
- Application of Molding Process in Sheet Metal Molding
- Research on Milling Technology of High-temperature Alloy in Aerospace Industry

Intelligent Automation Session

- The Revolution and Opportunity of Industrial Internet
- Digital Manufacturing Technology of Mould
- Flexible Solution of Robot
- New Challenges in the Application of Industrial Robots
- Automatic Processing Technology and Case Analysis
- High Value Automation Test and Case Analysis
- Intelligent Modeling and Management
- Virtual Reality and Augmented Reality
- Online Test Control System
- Research and Practice of Intelligent Numerical Control Technology

Laser Processing Session

- Laser Repair and Strengthening Technology for Auto Cover Parts
- Hot-forming Laser Cutting Solution
- The Application of Laser Cutting in Automobile Manufacturing
- Laser Additive Manufacturing and Remanufacturing in Military and Civilian Applications
- Laser Cutting Welding Technology and Equipment for Automotive Industry
- Innovation Solution of Laser Welding in Power Lithium Battery Industry
- The Application of Laser Technology in Automotive White Body Processing and Manufacturing
- Robot and Automatic Laser Welding
- The Application of Intelligent Laser Welding in Power Battery

Who Should Attend

By Industry

- Vehicle Manufacturers
- Auto parts/OEM
- Mold Manufacturers
- Aero Engine Manufacturers
- Household Appliances, 3C Manufacturers
- Gear Manufacturers
- Aviation Components Manufacturers
- Rail and Components Manufacturers
- Other Industry Manufacturers

By Job Title

- GM/VP
- Manufacturing Director
- Technical/R&D /Planning Director/Manager
- Production/Process/Project Director/Manager
- QC Director/Manager
- Purchasing Director/Manager
- Marketing/Sales Director/Manager
- Machining Engineer

Taking advantage of powerful media resources, Ringier Conference covers the industries of plastics, food, personal care, medicine & health care, nonwovens, coatings & ink, automobile, metal, mold & die, package, composite material, and the latest technologies. Since 2003, we organize over 20 high level conferences bringing industry leaders together for information exchange and networking opportunities in China and successfully extend into S.E.Asia from 2014.

A series of conferences in S.E.Asia that cater specifically to industry verticals like metalworking technology, plastics processing, automotive, food beverage processing & packaging representing growth sectors in many S.E. Asia countries. These sectors require high levels of technology and upgrading to meet the growing needs of sophisticated consumers both domestically and for export markets.

Conferences organized by Ringier not only provide industry leaders with the latest technologies, but also help Greater China enterprises innovatively explore new markets.

We
make your
business
happen

Ringier Trade Media Ltd. has been a leading B2B industrial information provider for 20 years, providing industrial leaders in China, Asia, and the Middle East with the technical information, solutions and applications they need to improve their manufacturing and marketing capability through multiple media platforms.

Ringier Events organize industry conference which bring together over 3,000 industry leaders each year to exchange information and networking opportunities on specific topics critical to the future development of industry. Ringier Events not only provide industry leaders with the latest technologies, but also help Greater China enterprises innovatively explore new markets.

Why
should
you
sponsor?

- Showcase your latest products and services to a large number of delegates and visitors
- Benefit from unique networking options with your target audience
- Advertise your company expertise and services through our multiple media channels
- Factory Tour: The opportunity to experience first-hand what makes a best-in-class factory operate.
- Special Benefits for Booth Sponsor: Matchmaking Service and New Technology Presentation
