# China Food & Beverage Manufacturing Summit 2018

-Food for Special Medical Purpose (FSMP), Nutritional Food, Functional Beverage,  
Innovative Packaging& Processing and Automation Technology

## Conference Background:

The 9th China Food & Beverage Manufacturing Summit 2018 was held at the Guangzhou Baiyun Hilton Hotel on August 21-22, 2018. During the two-day conference, there were more than 300 professional delegates came from food for beverage, food, packaging, pharmacy, processing & smart manufacturing industries. Three parallel tracks with 25 keynote speeches covering the latest hot spots from special medical purpose (FSMP), nutrition food, functional beverage, innovative packaging, processing and automation technology. At the exhibition area, 25 booths and 14 innovative technology seminars provided an opportunity and platform for food and beverage manufacturing enterprises close to the advanced technology and solutions.

There were 30 new beverage products participated in the Beverage Tasting Zone. In the two-day activity, all the delegates could taste the new beverage and vote for the best one of the year 2018. Another popular activity is "Global data & Analysis Report Search Station " organized by Innova Market Insights. These valuable information motivate the participants to grasp the industry development lifeline and obtain new product development inspiration. A factory tour to Guangzhou Xiangsheng Laser Technology Co. was also held in the second day afternoon , where participants could discover the latest technology of package printing..

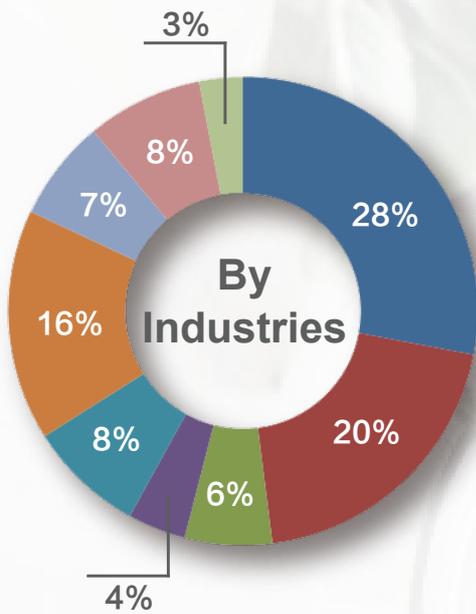

The conference has well received by sponsors, speakers and delegates, and all of them are looking forward to the next session!
