

2018 New Energy Vehicle Manufacturing Conference

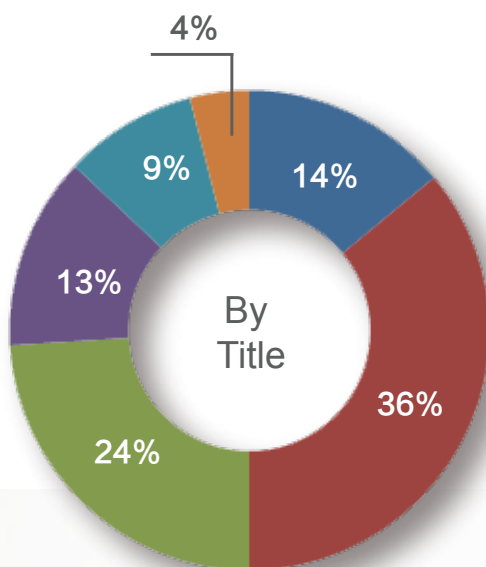

Background:

Supported by Dongguan Lithium Battery Industry Association and Shenzhen Power Supply Technology Society, Ringier's Automotive Manufacturing & Design for China magazine has successfully organized "New Energy Vehicle Manufacturing Conference 2018" on September 11-12th in Shenzhen, China. Over 200 industry representatives and dozens of media partners participated in this conference. 13 speeches and two panel discussions covered the topics of technology applications, new equipment, innovative materials, automation and detections etc. It is definitely a great opportunity for networking within supply demand chain in the industry, and a high end communication platform for China as well as Asia-Pacific industry professionals.

Attendees

New energy vehicle operations (OEM)	18%
Automotive component suppliers	16%
Battery manufacturers, pack system integrators	25%
New materials technical suppliers	15%
Vehicle design, software and equipment manufacturers	18%
Industry association, academics, research institute.,etc	8%

President / General Manager / Vice General Manager	14%
Technical Supervisor / engineer	36%
Director / Manager of Technology R&D Department	24%
Director / Manager of Purchasing and Quality Control	13%
Director / Manager of Production Technology Department	9%
Others	4%

Speakers

Mike Hay
Ringier Trade Media Limited
President
Opening Address

YIN Mingcheng
Tianneng Group
deputy GM of Shenzhen branch
Chairman

Speakers

ZHOU Fatao

Guangdong New Energy Vehicles Industry Association
Chairman

Topic: Policy and market trends of NEV

XIAO Haiping

PR Director, commercial vehicle sales division
BYD Auto

Topic: Technical innovation and Commercialization of Electric commercial vehicle

Yiwang Huang

Deputy Product Line Director
GAEI of GAC Group

Topic: GAC NEV platform EV Modular architecture

SHI Chong

Application engineer
COMSOL

Topic: Application of multiphysics simulation in new energy vehicles

Thomas SHI

General manager Greater China
Dopag

Topic: How to provide high-quality rubber coating solutions for the NEV industry?

LIU Cheng

Business Minister
Shanghai FE-MOVAC Precision Machine Ltd

Topic: Application of high pressure cleaning device in the field of new energy vehicles

YANG Rui

Marketing director of ZTEV
ZTE corporation

Topic: Adoption of wireless charging technology in NEV

ZHANG Yongxiang

General Manager
Tele Battery Recycle Technology Co.,Ltd

Topic: Construction of new energy vehicle power battery recycling system under the "Interim Measures for the Management of Recycling and Utilization of Power Battery for New Energy Vehicles

PIAO Changhao

President of Powertrain Research Institute
SINGULATO MOTORS

Topic: Key technologies for efficient and safe management of power batteries

WANG Kang

Vice President
Yangtze River automobile

Topic: New Energy Bus Lightweight and Wheelside Drive Technology Outlook

Raymond Wang

Regional Sales Manager-South China
Synventive Molding Solutions (Suzhou) Co.,Ltd

Topic: Application of Synventive Hot Runner System solution in Automobile Lightweight

MAO Weidong

Director of Manufacture Engineering Department
Chery New Energy Automotive Technology Co., Ltd

Topic: Implementation and Discussion of Lightweight Technology for Chery New Energy Vehicles

NIU Liyuan

Deputy Chief Engineer of Engineering Research Institute
Zotye Motor

Topic: Carbon fiber, aluminum-alloy body development and online coating technology

部分参会企业

Guangdong New Energy Vehicles Industry Association
BYD Auto
GAEL of GAC Group
COMSOL
BJEV
Dopag
Shanghai FE-MOVAC Precision Machine Ltd
ZTEV,ZTE corporation
Tele Battery Recycle Technology Co.,Ltd
SINGULATO MOTORS

Networking in exhibition area

Onsite Photos

Panel discussion: 新能源车发展核心技术及推广挑战。

Moderator: ZHOU Fatao, Chairman, Guangdong New Energy Vehicles Industry Association

Panelists:

WANG Wei, Assistant director, Shenzhen Electric Vehicle Application and promotion Center

XIAO Haiping, PR Director, commercial vehicle sales division, BYD Auto

WAN Jianbin, deputy general manager, Green Wheel

Panel discussion: 后补贴时代，动力电池如何打造核心竞争力？

Moderator: YIN Mingcheng, deputy GM of Shenzhen branch, Tianneng Group

Panelists:

LIU Jiansheng, head of Power Battery Research Institute, Great Power Energy & Technology Co., Ltd.

YU Xin, electrical manager, Microvast

FAN Zhixian, Director of Electric Engineering Center, Zhongtong BUS

Thomas SHI, General manager Greater China, Dopag

SHI Chong, Application engineer, COMSOL
