

15TH

Nonwoven Technology Innovation Application Summit

August 21st–22nd China | Hangzhou

Summit

Despite the issues of 2018 like rising in price of raw materials, and bilateral friction between China and the US, the Nonwoven industry is still positively growing, both in innovation and profitability. Compare to the same period last year from January till July, the productivity – of ABOVE SCALE nonwoven producers – increased by 9.17%, and the income / profit increased by 9.58% / 2.34%, The exports volume increased by 14.79%. The scientific achievements and technological breakthroughs in all fields of the industry are gradually transforming into commercial practice. Indicates that China nonwoven industry is now playing in international ground, and experiencing a critical term of structural upgrading.

The 15th **Nonwovens Technology Innovative Application Summit**, will come to Hangzhou on August 21–22, 2019, with sessions of "Personal Care and Hygiene""Filtering and Separation", topics on "fiber green", "technology combination", "sustainable production" and "product/service upgrading", will be carried out.

Previous Attendees : MEGASOFT | C-BONS | Beishute | Foliage | Nox Bellcow | Amore Pacific | Suning Underpad | Kingfo | Hengan International | Shandong Jingxin | Taipeng | Anhui Golden Spring | Dalian Ruiguang | Shandong Guanjin | Baiya | Coco Healthcare | Pigeon | HANGZHOU GUOQUANG(G&G) | Shanghai Fengge | Hunan Cosom Care | SOFIMA (Find List Below)

200+

Attendees From

- Manufacturers of diapers, feminine hygiene, wet towels, facial masks.
- Manufacturer of filters, filter bags/filters/HVAC filters components.
- End users such as manufacturers of vehicles and automobiles, food&beverage, air conditioning and clean room equipments.
- Nonwoven film manufacturers, production line providers.
- Fiber and fiber tech supplier, additive and function elements supplier.
- Machinery supplier, such as carding , garneting , lapping , dryer , roller, cutting and other handling machines.
- Reel, spray, needle, and other component supplier.
- Monitoring, testing, certification, software and other solution provider.
- Government, associations, academic research institutions.

Experts

High Profession Environment

All start from products & technology, identify links on professionalism, the in-depth interaction helps sparking of inspiration and understanding your situation in the industry.

3 tea breaks, 2 luncheon in star hotel, your perfect social opportunity, to dig-up in circles, highlight impression and form a strong relationship.

For sponsor: we have on-site supplier and demander matching services, appointment before, face-to-face in event, start your reciprocity conversation.

16+

Keynote Speakers

In the past 14 years, new technologies in the nonwoven industry has always appeal to Ringier. With the support of 《International Nonwoven Industrial News》 and 《Nonwoven Industry Magazine》, we brings together known experts, practitioners and business leaders, to explore the facts and development guides of the industry.

In personal care & hygiene session, topics will be the material features, fiber technology, application cases, production processes and sustainable development of products such as sanitary products, disposable products and facial masks!

In filtration and separation session, Attention will be paid to filter efficiency advancing, durable extending, dust collectors advancing, energy saving, and IQA improving

New

Technology Experience

Convention + exhibition, combination of knowledge and experience: Suppliers with new solutions will be gathered here!

A display area for innovative products will be there, welcomes all participants to carry small samples for trial. Products, is your signal to your business mates and perfect ice-breaking tool!

Innovation talk by exhibitors, will give you a clear background and benefits of the new techs and solutions!

Hot Topics

Main Session

- Global trends and Challenges of Nonwoven Industry
- Application of cross laying equipment in lightening of production
- Update of bio-based degradable materials
- Nanofiber Nonwoven Fabrics by Electrospinning and Meltblown Nonwovens

Personal Care and Hygiene Session

- Comfort Evaluation Methods for Nonwoven Products
- Adult Wet Toilet Paper and Baby Toilet Wipes
- Application of “Kamisfot Advanced” SB/SMS Technology in Diapers
- Continuous polymerization–direct spinning PLA Fibers
- A new type of Flat Belt Oven Carding Machine
- The Advancing and Development of Cotton Nonwoven

Filtration and Separation Session

- Application of submicro technology in liquid filtration
- Excellent performance of melt-blown fiber with a new type of ultra-high melt flow polypropylene
- Advantages and Applications With ISO 16890 Standard
- Electrospun Filter Media for Gas and Liquid Filtration
- Intelligent HVAC Filter
- Application of Cellulose Fibers in Wetlaid Filtration Materials

2018 Ringier Nonwoven Event Review

September 18–19 China Qsingtao

THANKS

Attendee Categories

With more market trend & new guides sharing with participants, Ringier's meeting will become larger and larger!

- Shandong Derun New Material

Innovative technology, marketing model. This year the forum is more professional than previous years, and the topics of the session are more detailed.

- Shandong Xinguang Stock

In a word, whole lot of benefits.

- Far Eastern New Century Corporation

About Ringier

Ringier Events covers the industries of plastics, food, personal care, medicine & healthcare, nonwovens, coatings & ink, automobile, metal, mold & die, package, composite material, and the latest technologies at over 20 high levels technical conferences held each year, and brings key executives responsible for testing, evaluating, recommending and purchasing equipment, systems and material on behalf of their companies, quality speakers and representations from sponsors together create a valuable platform where information can be exchanged, new business contacts made. Services, including webinars and events, is also Ringier's existing service. Our turn-key service can help you effectively promote your events, arrange additional qualified speakers, manage webinar & registrations, and we provide whole set service during the event.
