

10th Food&Beverage Manufacturing Summit

Crowne Plaza Century Park Shanghai

Nov.21-22

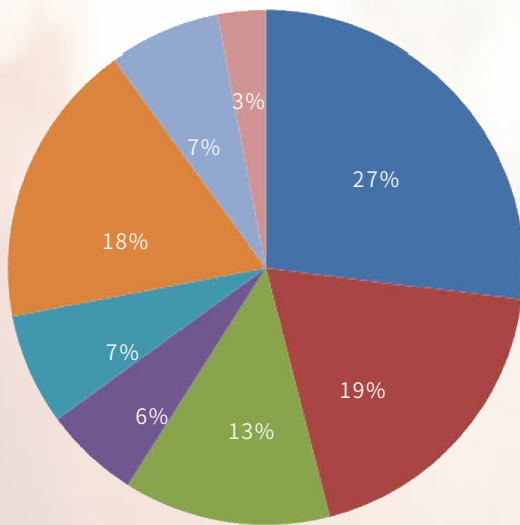

**Developing and Formula
Manufacturing and Packaging**

The 10th Food and Beverage Manufacturing Summit held on November 21st -22nd, which co-organized by Ringier Trade Media & Shanghai Society of Food Science, attracted 200+ food and beverage professionals from processing, R&D, QC, product and other departments. Developing & formula, manufacturing & packaging, trend & innovation, various opinion and technologies were discussed here. While speakers were sharing their knowledge, exhibitors were also showing off their new released products and solutions: The latest protein solution- Peptan 2 - by Rousselot China; Innovative packaging technology by Technimark China; Bacterial solution from UAS Labs, presented by Wader Group. Meanwhile, trial of Kewpie International's Apple vinegar and Oatly's oats drink also caught many eyes. After one and half fruitful days, attendees went to the Yakult factory to discover their global standard processing technologies!

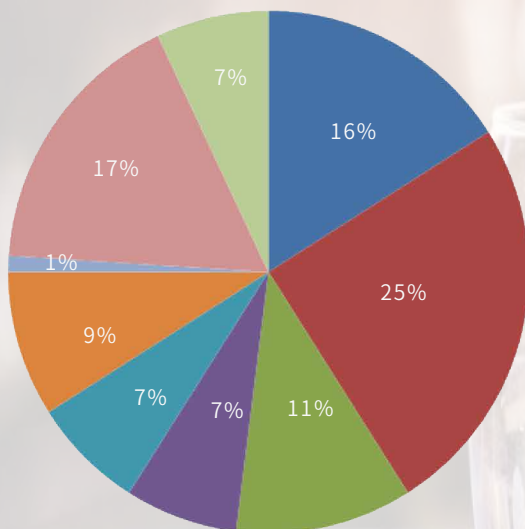

Two sessions, 17 technical keynote speeches, the shared topics were well appreciated, such as "Application of New Technologies during Food Processing", "Block Chain-Build Food Safety That is Trusted by Customers", "Trend and Innovation of Global Nutrition Food", "Discussion on the key Technology of Food Packaging", "Reducing Staff and Increasing Efficiency of Palletizing Robot Booster Production Line", "Oatsome!The Power of Oats", "Proposal and Practice of Functional Foods for Cardiovascular Diseases", "Globalization of TCM Based Nutritional Food", "Infant Nutrition Food". The last session ended on a discussion on the functionalization of normal food, which inspired more ideas.
