OUR OCEAN

OSLO, 23-24 OCTOBER 2019

+ Our Ocean 2019

23-24 October
Oslo, Norway

Learning
Sharing
Acting

MISSION: The conference will build partnerships between government, industry, science and civil society, putting knowledge, technology and finance into action to meet the challenges facing the ocean and enable production and protection to go hand in hand so that the ocean can continue to provide for the needs of future generations.

VISION: A conference to learn, share and act for clean, healthy and productive oceans.

COMMITMENTS: Governments, organisations and businesses are encouraged to announce new and far-reaching actions to the best of our oceans. Commitments should have significant impact, be measurable and have a clear timeframe.
