## Women in Business

---

Future Women Leaders

Women are well represented in management position in almost every industry. But when approaching the senior echelon, they begin to fall away and companies lose advantages that women possess. Even though the awareness for diversity and the recognition of the importance of women as leaders and entrepreneurs are growing, they are still underrepresented in power and decision-making positions.

2019 has so far been an exciting year for the European-Philippine business community. It marks the first anniversary of the implementation of the landmark Ease of Doing Business Law and welcomes the 18th Congress with its list of legislative economic priorities. Steady macroeconomic fundamentals as well as the administration's plans and pronouncements concerning economic reforms also open opportunities for further trade and investments. Furthermore, the ECCP aims to build upon the achievements of the past years in making the Philippine business environment friendlier for European companies and ensuring that these businesses can make the most of these exciting developments.

#### EVENT DESCRIPTION:

This event is brought to you by the Beijing Women's Network and BARE Project.

"I wasn't conscious of how bad my stress was and how it was impacting my daily life, nor was I able to change my lifestyle to feel better." -Helena Javitte, China Innovation Manager at Accuracy and founder of BARE.

How can we implement solutions when we don't know there is a problem or refuse to admit something needs to change?

How can we talk about stress in a society that pushes us to always achieve more and where opening up about our challenges makes us look weak?

Join us for this empowering workshop where **Helena** will start by sharing the impact of stress on both our physical and mental health backed by science and statistics; she will then guide us during role plays to learn how to feel comfortable opening up to our boss and our loved ones.

The screenshot displays the EventBank CRM interface. At the top, there are navigation tabs for 'Activities', 'Metrics', 'Contact information', and 'Groups & subscriptions'. Below these, a secondary row of tabs includes 'All', 'Notes', 'Campaigns', 'Tasks', 'Memberships', and 'Events'. The main content area is titled 'Activities' and features a filter icon and an 'Add new' button. A vertical timeline on the left shows activity dates from 10 Jun to 6 Jun. The primary focus is on the contact profile for Emma Miller, which includes a profile picture, name, title (CMO at Milwaukee Transfer Co.), and role tags (Spoker, Sponsor, Member). The profile also lists the owner (William Tucker) and provides options to edit info, send email, add notes, add to list, and view more. Contact details such as email (emma.miller@milwaukeeatransfer.com), phone (+1-888-218-1354), and address (1775 Tysons Blvd, 5th Floor, Tysons, VA 22102, United States) are also visible. The activity log shows several events, including ticket purchases, approvals, and system notifications.

EventBank CRM allows Organizations to use data collected to identify and act on the next business opportunity.

The Engagement Score gives our clients immediate insights into engagement with each contact stored in the CRM, real-time reflection of the events attended, number of received and opened email campaigns and membership activity.
